MULTIPIPE

Multipipe Rio Digital Thermostat
Technical Data Sheet

Product Detail
Simple to use and with a clear easy to read LCD display, the RIO digital thermostat is perfect for users who want complete control over their underfloor heating system. With silent switching and TPI (Time Proportional & Integral) calibration, accuracy and efficiency are assured. Time and heat schedules are also fully programmable to optimise control and minimise energy usage.

Benefits

- Easy to swap programmed temperatures
- Holiday mode feature
- 5-year warranty
- Easy to read back-lit screen

Features

- TPI "self-Learning" control
- Variable Setback control
- ErP Rating IV
- fixed or timed temperature

Product Code	22-23003
Input Voltage	230 V AC, +-10%, 50/60 Hz
Thermostat Type	Programmable
Temperature Setback	Adjustable
Temperature Span	+/- 0.5°C
IP Rating	IP 30
CE Conformity	Class II (EN60730)
Weight	125g net / 170g gross
Dimentions (LWD)	85x85x25mm
